

2014 Annual Christmas Party

Our annual Christmas party took place on December 17, at the Woodmen's Lodge. Ralph Thomas prepared some delicious pulled pork and chicken, while other members brought a great variety of side dishes and some scrumptious deserts.

The gift exchange this year was limited to turned Christmas ornaments. There was some impressive craftsmanship displayed, with many different styles. Everyone who offered an ornament should be proud, as the recipients were certainly pleased.

The steering committee opted this year to gain a little variety in the door prizes, including LED work lamps, project kits, lathe accessories and tools.

A special thanks goes out to everyone who participated to make the party a success – making ornaments, preparing food and helping with the setup and cleanup.

The following photos catch the flavor of the fellowship enjoyed.

One final note for those of you in need of a dust collector. Fred Bond wants to sell a Delta dust collector, 2 bag model mounted on a mobile stand. 1 HP motor. Will service 2-3 machines simultaneously. Excellent condition. Price \$100. Early bird will get this worm!
