

**ArtisticWoodturners  
Newsletter  
February 2013**

The demonstration for this month is turning a rolling pin; Jeff Olive will be turning a French rolling pin. He will be showing how to use different tools to accomplish the same results. His idea is you should use the tool you are comfortable with. Remember Parting Tool that is how he got his nickname.

The challenge for this month will be to turn a natural edged bowl, the one you watched Ralph demo last month. To see the photos of his demo check them out on our website.

As always we will be having a wood auction. If you have some wood you would like to donate bring it with you, the money goes to the club for our use. Thank you.

As you may remember Mike Veal has access to a boatload of bowling pins. He would like to know how many you would like to have. Jeff Olive has come up with an idea as to what we can make for the person that will be providing the pins. You will have to come to the meeting to find out what that will be.

Be prepared with your safety moment or as some of you call a mental laps, since the lathe has no mind to speak of, it is up to you to listen to the small voice in your head telling you what you are about to do may hurt you, listen to what it is telling you. OK!

See you at the meeting.
